Emerson thermostat 1F78-151 reset

When it comes to troubleshooting your White Rodgers thermostat, all it may take is a simple reset. The procedure to reset your thermostat may depend on the model you have. Generally, you'll need to open the thermostat cover and detach the wires from terminals R and C. Next, remove the batteries for a couple minutes and then replace them. Program your thermostat to the ambient temperature. If you hear one click, your thermostat has been reset. Other reset procedures involve pressing and holding the 'Up' or 'Down' arrows and the 'Time' buttons at the same time until the display goes blank and the reappears. HomeX virtual experts will assess your issue (for free!) and can resolve simple problems. At SmartHomePerfect our information is accurate and unbiased. Check out the latest White Rodgers / Emerson smart thermostats below for a quick DIY upgrade. Where the instructions require you to remove the thermostat from its base plate, potentially exposing live wiring, we recommend you isolate the circuit beforehand. At SmartHomePerfect we always advise readers not to undertake any work they are not competent in performing and if in any doubt, please seek the assistance of a professional. What's your Model? Reset instructions differ per thermostat model so ideally, you should know the specific model to get the most accurate instructions. If you do not know your model number, we have included imagery of each thermostat below to help guide you. Typically the model number is printed on the back of the thermostat cover plate, which requires you to remove the cover to see it. Simply grasp the front cover and pull away from the wall plate to read it. Be careful as wiring may be exposed with the cover plate removed. Classic 80 & 70 Series White Rodgers Thermostat Model: 1F85-277, 1F80-361, 1F86-344, 1F72-151, 1F79-111, 1F78-151, 1E78-151, 1F78-144 Again, depending on the model there are slight variations to the reset procedure. Press and hold the Up and/or Down arrow and the TIME button at the same time The display will initially go blank and then reappear The configuration settings are now reset Press and hold the Up and/or Down arrow and move the system switch from OFF to HEAT at the same time. The display will initially go blank and then reappear The configuration settings are now reset Sensi Touch Smart Thermostat Models: 1F95U-42WFB, 1F95U-42WF The Sensi touch smart thermostat is one of Emerson's latest models which includes smart home integrations, is voice compatible with Alexa and Google Home, and features an HD color touch screen. It can save you up to 23% on your energy bills with smart features like geofencing, flexible schedules, and remote access. This procedure changes all settings back to default. It clears the existing Wi-Fi connection and Apple Homekit pairing however doesn't clear your HVAC equipment configuration. Press Menu Press About Thermostat Press "Factory Reset" All done - the thermostat is reset Schedule Reset To reset your schedule you can simply set a new schedule in the touchscreen interface by pressing Menu, pressing Schedule, ensure Schedule is "On" and editing your configuration settings and clicking Save. The schedule can also be updated in the Sensi App. Wi-Fi Reset The Wi-Fi network reset process differs depending on if you have the Sensi App installed on an iOS or Android device. For detailed instruction, visit Sensi Smart Thermostat Models: 1F87U-42WF The Sensi Smart Thermostat is a very popular choice for smart homes with extensive compatibility with heating and cooling systems and support for voice commands with Alexa, Siri, and Google Assistant. Like it's Sensi Touch counterpart, it also features gen-fencing, flexible scheduling, remote access along with providing analytics on your energy usage. Schedule Reset To set or reset your smart thermostat schedule, you can either click Schedule and follow the instructions to update the configuration or use the Sensi App to make changes. Further details can be found here Wi-Fi Reset The Wi-Fi network reset process differs based on if you have the Sensi App installed on an iOS or Android device.
